**Annexure A****MANAGEMENT DISCUSSION AND ANALYSIS REPORT****A GENERAL ECONOMIC SCENARIO :**

The year 2010 started on an optimistic note with the global economy gradually stabilising, Improving private demand in developed economies and robust overall demand in emerging market economies helped the global economy to come back on the growth track. Global Economy grew by 4-1/2 percent in 2010. Economic uncertainty and rising public indebtedness looms large over most of the developed world. The health of Private Sector has consistently improved over the recent quarters even as the public sector continues to be weighed down by debt in many mature markets. High unemployment in the developed economies, geopolitical uncertainty in certain regions and rising food and commodity prices are the challenges the might weaken the economic growth.

A sequenced and gradual withdrawal of the monetary accommodation is helping contain inflationary pressures. Inflation which remained elevated levels for a large part of the current fiscal was largely driven by food items, though the goods that were inflating at the start of the fiscal year were different from the goods for which prices are rising now. Notwithstanding the tightening money markets and moderate growth in deposits, the financial situation remained orderly with a pickup in credit growth, vibrant equity market and stable foreign exchange market.

Indian economy has been thriving on its strong fundamentals led primarily by domestic demand, well diversified mature segments like industry, agriculture, services, well regulated financial sector and capital markets, promising demography of young and skilled population and sizeable and prospering middle class. Riding on these very fundamentals and supported by a favourable south-west monsoon, Indian economy posted strong recovery in the financial year 2010-11. Revised estimates of Central Statistical Office have estimated the Indian economy to have grown by 8.5% in FY 2011. According to the United Nations Conference on Trade and Development, India ranked third among global Foreign Direct Investment destinations in 2009.

B. CONSTRUCTION AND INFRASTRUCTURE SECTOR IN INDIA:

The growth in construction and infrastructure sector is closely linked to the socio-economic development of geographic regions. For India, construction and infrastructure development form the backbone of its progress and economic development. This sector is the second largest employer after agriculture.

With the rapid economic advancement of India over the recent years, its construction and infrastructure sector too has grown at a healthy rate between the years 2000 to 2007. Global economic and liquidity crisis of 2008, though did impact the growth of this sector across the globe including India. The sector appears to have undergone a decisive learning curve during 2008 and 2009. With the Indian economy rebounding with a GDP growth of 7.4% in 2009-10 and following it with an even improved growth of 8.5% in 2010-11, construction and infrastructure activities in India too appear to have come back on growth track which is evident from increasing demand in housing segments, preference of public towards mall culture, entertainment sources like theaters, game zones, etc.

C. CAPITAL MARKETS IN INDIA:

Domestic capital markets performed well in 2010, primary markets financing reached record levels, including the largest-ever initial public offering (IPO) (for Coal India), while secondary markets reached new highs. Record foreign inflows helped the market. Pensions and insurance gained, with life insurance premium growing nearly 26 per cent and penetration doubling to 5.4 per cent of GDP in 2009 from 2.3 per cent in 2000 when insurance reforms started. Looking to the future, the twin challenges are to continue this progress on gradual financial reform and to modernize regulations and institutions to ensure its continued safety and stability.

The capital markets exhibited buoyancy during 2010 as the markets recovered and gained strength against the backdrop of a distinct improvement in the risk appetite of investors leading to a sharp rise in international capital flows to emerging markets including India.

The year 2010 has been one of strong growth for the Indian capital markets. Bulls tossed off the markets in the year 2010 to a net gain of 18 %, following global recovery and with FIIs pumping money in to the market on account of solid domestic growth coupled with a resurging corporate sector. Indices achieved record highs during the special one-hour muhurat trading on 5th November 2010 with the Sensex touching 21004 and Nifty 6312. As on 31 December 2010, the markets stand just 3 per cent away from this all time peak and closed at 20509 (+ 17.43 % from 31st December 2009 for the Sensex) and 6134 (+ 17.95 % for Nifty).

Indian markets have been making gains for eight quarters in a row, their longest winning run in at least 20 years. While 2009 was basically a year of recovery from the crisis, year of 2008 & 2010 was one of consolidation of gains.

Primary Market

The year 2010-11 has seen the Indian capital market put the worst behind and move towards strong growth with the number of companies being listed increasing and also the mean IPO size increasing as compared to 2009. The amount of capital mobilised through private placements in 2010-11 has reduced as compared to 2009-10.

Secondary Market

As on 31 December 2010, Indian benchmark indices, the BSE Sensex and Nifty, increased by 17.0 % and 17.9 % respectively over the closing value of 2009-10. Nifty Junior and BSE 500 also increased by 17.8 % and 15.1 % respectively over their values in the previous financial year. The free float market capitalization of Nifty, the Sensex, Nifty Junior, and BSE 500 stood at Rs. 18,27,097 crores, Rs. 16,32,236 crores, Rs. 3,37,573 crores, and Rs. 29,52,135 crores respectively, showing an increase of 19.8 %, 22.8 %, 15.5 % and 20.8 % respectively over their values in financial year 2009-10.

The price to earnings (P/E) ratios of Nifty, the Sensex, Nifty Junior, and BSE 500 as on 31st December 2010 were 24.5, 23.6, 17.6 and 21.4 respectively, indicating an increase of 10.1 %, 10.5 %, 11.6 % and 4.5 % respectively over their 2009-10 values.

Equity Derivatives

In the equity derivative segment, the NSE witnessed an increase in the total turnover while the BSE witnessed a fall in the total turnover.

Reasons for Market Movements

- Markets are riding on the strong health of the Indian corporate sector.
- Historically low yields in developed markets due to accommodative monetary policies and weak economic prospects have pushed FII inflows to emerging markets to record highs.
- The primary market got a new lease of life this calendar year with Indian companies raising Rs. 69,192 crores through IPOs and FPOs.
- Global recovery also resulted in an upsurge in the markets, boosting sentiments across the globe.
- Globally, leaders are striving to keep the pace of growth intact.

D. REVIEW OF COMPANY'S BUSINESS OPERATIONS:

KCL Infra Projects Limited is a Company operating in two segments – one is construction and infrastructure development segment and the other is the dealing in shares, securities and derivatives segment. During the years 2006 to 2010, the Company could not find any significant business opportunity in construction and infrastructure segment. However, from the financial year 2010-11, the company is striving hard to find various growth opportunities in construction and infrastructure segment and during the year 2010-11, the company has earned a turnover of about Rs. 468.50 Lacs from this segment.

The Company has done the major business in another segment of It i.e. dealing in shares, securities and derivatives. The turnover of the Company in this segment accounted for about Rs. 13,388.63 Lacs during the year 2010-11.

Financial year 2010-11 proved to be a year of growth for the Company. The total turnover of the Company was Rs. 13,857.13 Lacs as compared to the turnover of Rs. 6,529.97 Lacs of the previous year 2009-10 showing an increase of about 112.21%. Similarly the net profit of the Company during the year 2010-11 was Rs. 15.39 Lacs as compared to the net profit of Rs. 14.80 Lacs of the previous year 2009-10 showing an increase of about 3.93%.

The Company has also taken steps to diversify its business and made survey of entertainment and media sector and finding the said business lucrative, in the initial stage the Company has decided to act as distributor of movies, Television serials, walkthroughs, etc. In order to enable the Company to enter into entertainment and media sector, the Company has proposed the approval of its members in the forthcoming Sixteenth Annual General Meeting for alteration of main objects clause of the Memorandum of Association of the company. After getting the approval of members, the company will embark upon this new business.

E. OPPORTUNITIES:

A vibrant economy, better employment prospects, improving salary structure, improving sentiments among potential buyers, potential for increasing urbanisation and favourable demographics form the key growth drivers for the construction and infrastructure and also the overall growth of the companies in all sectors thereby enabling the share prices of such companies to improve further. In the range of 8-9% India's GDP growth continues to be amongst world's fastest. The economic growth is visible, with hiring plans increasing across various industries, rising salaries and improving economic sentiment. Several service sectors are also witnessing a revival, with the IT/ITES sector which accounts for about 50-70% of demand in India's construction sector, ramping up hiring plans and raising salaries.

The infrastructure space in India is opening up further and significant progress has been made in initiating expanded infrastructure development plans across the economy. Increased emphasis is laid on the Public Private Partnership (PPP) approach for meeting the large financing requirements.

The capital market is also witnessing an increasing trend in view of strong fundamentals and economic indicators of India.

F. THREATS:

India's construction and infrastructure sector is largely unorganised and dominated by a large number of small players (with limited corporate or large / international names on the national scene yet).

Key risks synonymous to the construction and infrastructure sector include the global recessionary trend, economic slowdown, increase in financial cost, non-availability (or undue increase in cost) of raw materials such as land, cement, steel, labour, etc. coupled with market fluctuations.

KCL is adequately equipped to face and mitigate any such adverse situation. The Company does not apprehend any inherency risk in the construction and infrastructure sector in the long run, with the excuption of certain primary concerns that have afflicted the progress of real estate industry in general like :

1. Restrictive legislation and related adverse changes, if any, in governmental policies relating to construction and infrastructure sector.
2. Limited investment from the organised sector.
3. One of the most overburdened tax segments in the country.
4. Rising inflation
5. High interest rate
6. Volatile global economic environment.

Beyond standard business risks, the Company faces competition from both its old competitors as well as new entrants in the sector.

The Capital market is highly volatile and does not depend upon domestic economic scenario but it depends upon global economic scenario, FII inflows, statutory rules and regulations, etc.

G. RISKS AND CONCERNS:

KCL deploys a robust and effective risk management framework across diverse spectrum of its business operations in construction and infrastructure segment and securities and derivatives segment. The risks can be classified as those relating to quality, value, analysis, competitive market environment including comparative demand-supply imbalance, operating price, highly volatile market, efficient and cost-effective project execution, prices, availability of key raw materials including human capital and prevalent regulatory and statutory norms.

While risks inherent to the industry and its macro-economic drivers remain beyond the control of any Company, a vigilant and pro-active risk management enables KCL in taking preventive steps at the right time and insulate its business interest to a greater extent from risks of those natures.

H. OUTLOOK:

Having witnessed a visible revival in demand and return of consumer confidence during financial year 2011, the construction and infrastructure sector appears to continue its momentum, going forward. A vast majority of incremental development of infrastructure is expected to appear in Tier II cities in the coming years. In order to truly emerge as a leading global economy, India's civic and social infrastructure would need to develop fast. Overall, the outlook for construction and infrastructure activities in India is slated to be promising. Though downside risks of global events, particularly movement in prices of commodities like crude oil, remain, the Indian economy is poised to further improve and consolidate in terms of key macroeconomic indicators and KCL expects to reap rich dividends from this ongoing growth phase in India.

I. INTERNAL CONTROL MECHANISM:

The company has adequate internal control systems in place, commensurate with its size and nature of operations. The Internal Auditor, inter alia, covers all significant areas of the company's operations and submits the report to the Audit Committee for their review.

Internal control procedures at KCL are designed to ensure that all assets and resources are acquired economically, used efficiently and protected adequately and all internal policies and statutory guidelines are complied in letter and spirit.

The company's Audit Committee, the composition and functioning of which is in accordance with the provisions of Companies Act, 1956 as well as Clause 49 of the Listing Agreement, further strengthens the robustness of its internal control mechanism.

J. HUMAN RESOURCE DEVELOPMENT:

KCL believes that human capital and intelligence are critical to its growth and development. The Company and its management allocates significant focus on providing an open and equitable work environment to employees. The Company strives to align its business objectives with those of employees and deploys a slew of HR measures towards achieving this goal.

Employees at KCL work in a congenial and productive work environment that fosters the culture of mutual respect, collaborative working and openness in communication. The company had 9 employees as on March 31, 2011. The Company has also association with various professionals who work in association and co-ordination with the employees of the Company.

K. CAUTIONARY STATEMENT:

Annual Report constituting Directors' Report, Corporate Governance Report and other parts including this Management Discussion and Analysis dealing with the Company's objectives, present position and expectations are based on certain estimates, projections, personal wisdom and bias, etc. And such estimates, projections and forward looking statements lie within the ambit and meaning of applicable laws including securities law and regulations. Actual results could differ materially from those expressed or implied, depending upon global and Indian scenario. The Board of Directors presents in the Annual Report an analysis of performance of the company for the year 2010-11 and its outlook for the future. This outlook is based on the assessment of the current business environment and government policies. The changes in economy, related sectors and other development are likely to cause variation, adverse or favourable, in this outlook.

**Schedule 16****A Significant Accounting Policies**

Significant accounting policies adopted in the preparation and presentation of the accounts are as under:

1. Nature of Operations

KCL Infra Projects Limited ("the Company") was incorporated on 21st July, 1995 at Jaipur, India. The main object of the company is to carry on business of Construction & Infrastructure Activities. In addition to that company is also engaged in dealings of Shares & securities, derivatives and other investments.

2. Basis of Accounting

The financial statements have been prepared and presented under the historical cost convention on accrual basis of accounting, in accordance with the accounting principals generally accepted in India and comply with the applicable accounting standards issued by the Institute of Chartered Accountants of India (ICAI) and the relevant provisions of the Companies Act, 1956, to the extent applicable. Except where otherwise stated, the accounting principles have been consistently applied.

3. Fixed Assets

Fixed Assets are stated at cost less accumulated depreciation. Depreciation is provided on Straight Line method on prorata basis at the rates, which are prescribed in Schedule XIV of the Companies Act, 1956.

4. Investments

Long term investments are stated at cost and provision is made to recognize any diminution in value, other than that of a temporary nature.

5. Inventories

Inventories are valued as follows:

▪ Constructions & Infrastructure

Projects in progress are valued at cost.

▪ Equity Shares & Units of Mutual Fund

Equity Shares & Units of Mutual Fund are valued at Cost or realizable value, whichever is lower. Cost is determined on a First in First out Basis.

6. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

The Company is also carrying on business in Derivative segment. The Company has recorded the turnover on the basis of Contract Notes of Purchase & Sell.

7. Income taxes

Tax expense comprises both current and deferred taxes. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are recognised on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realised against future taxable profits.

8. Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the number of equity shares outstanding during the period.

9. Segment Reporting Policies**Identification of segments:**

The Company's operating businesses are organized and managed separately according to the nature of

products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

Allocation of common costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Segment Policies:

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

10. Provisions and Contingent Liabilities

The Company recognizes a provision where there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Disclosures for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.
